Carriers. If this is the case, SATA will let you know which airline will be operating the flight when booking and of the check-in at the airport. This situation may lead to a different level of service.

2.4 Bookings with travel agents, websites, and operators

For bookings made through channels that are not under the direct control of the airline (e.g., travel agents and websites apart from the airline's website), travel agents and website operators are responsible, accordingly with Articles 2(e) and 11 of Regulation (EC) No 2111/2005 of the European Parliament and of the Council, by informing passengers of the identity of the airline operating the flight and any changes to the same. However, if for reasons related to the volume or configuration of the object or due to unavailability of space it is not possible to store it safely in the luggage compartment of the aircraft, even if this luggage is within the accepted weight limits, these objects will not be transported in the cabin, and the Carrier may re-route them to the hold, subject to excess baggage rules, when applicable. The passenger must confirm that he is not carrying valuable items (e.g., jewelry, documents, keys) and/or prohibited or dangerous items (e.g., lithium batteries; electronic cigarettes), in which case they must be removed to be transported in the cabin by the passenger.

9.8.3 If a person intends to collect checked baggage and does not present the baggage tag (if one has been issued) the Carrier will only deliver the Baggage if the passenger convinces him of his right to it; when requested by the Carrier, the passenger must provide a formal guarantee that the Carrier will indemnify the Carrier for any loss, damage or expenses which he may incur due to the delivery of the baggage in these circumstances.

9.8.4 The acceptance of baggage by the bearer of the Baggage Identification Tag without complaint at the time of delivery is evidence, unless proven otherwise, that it was delivered to him in good condition and in accordance with the contract of carriage.

9.9 Animals

9.9.1 Dogs, cats, poultry, and other pets, accepted by the Carrier, when properly packed in containers, bags, or cages and accompanied by health and vaccination certificates, entry authorizations and other documents required by the countries of entry or transit, will be accepted for carriage in accordance with the Carrier's regulations. You must check our special conditions for transporting pets, as well as which animals are accepted by the Carrier.

9.9.3 Assistance dogs accompanying Disabled Passengers, as well as their containers and food, will be transported free of charge in addition to the normal amount of baggage whose transport is free of charge, but their transport is subject to the conditions indicated by the Carrier, which must be consulted in advance.

9.9.4 Without prejudice to the liability rules of the convention or other applicable law and except for the Carrier's negligence, acceptance for carriage of pets and assistance dogs is made on the assumption that the passenger assumes full responsibility for them. The Carrier will not be liable for the injury, loss, delay, illness, or death of such animals, nor for any damages resulting from their being refused entry into, or passage through, any country, state, or territory.

ARTICLE 10 Schedules, flight cancellations and boarding refusals

If the sum of the fare, excess baggage fee and any applicable service fee for re-routing exceeds the refund amount of the ticket or part thereof, the Carrier shall not charge any additional fee or fee to the passenger, and must refund the difference in fees and charges when the re-routing is lower; or

10.2.3 Make a refund in accordance with the provisions of article 11, thus being released from any liability to the passenger.

10.3 Boarding refusal

In case of denied boarding, the legal provisions in force apply.

When the Carrier does not provide carriage according to the carriage contract, or in the case the passenger voluntarily changes the provisions of that contract, the Carrier shall refund an unused ticket, overall or partially, in accordance with the following paragraphs contained in this article and further provisions on refunds contained in the Carrier's regulations.

11.2 Person to whom refund should be made

Unless otherwise indicated in this paragraph, the Carrier reserves the right to make the refund either to the person mentioned on the ticket or to the person who paid for it, in the presence of documented proof of such payment.

If a ticket has been paid for by a person other than the person whose name appears on the ticket, and the Carrier has indicated on the ticket, at the time of issuance, the notation that there is a refund restriction, the Carrier will issue the refund only to the person who paid for the ticket or someone else with your authorization.

Refunds will only be made upon presentation of the itinerary/receipt to the Carrier.

A refund made to the person who presents the passenger's itinerary/receipt, and who presents himself as the person to whom the refund must be made in accordance with points 11.3.1 or 11.3.2, will be considered an appropriate refund and will relieve the Carrier of liability and any subsequent refund claims.

11.3.1 If no portion of the ticket has been used, an amount equal to the fare paid;

11.3.2 If you used part of the ticket, the refund will correspond to the difference between the fare paid, and the fare for the transport used.

11.4 Voluntary refunds

If a passenger wants a refund of his ticket for reasons other than those indicated in the previous paragraphs of this Article, provided that the conditions of the respective fare authorize it, the amount of the refund will be:

11.4.1 If no portion of the ticket has been used, an amount equal to the fare paid, in accordance with the fare rules applicable to the fare accepted by the passenger, less any applicable service fees, cancellation fees and surcharges, plus subject to applicable law, any taxes, fees, and charges paid;

11.4.2 If a portion of the ticket has been used, the refund will be equal to the difference between the fare paid, in accordance with the fare rules applicable to the fare accepted by the passenger, and the fare applicable for travel between the points to which the ticket has been used, less any applicable service, cancellation and surcharge fees, plus, subject to applicable law, any taxes, fees, and charges paid and payable.

11.5 Right to deny a refund

11.5.1 The Carrier may refuse the refund of the respective ticket, when the request for this refund is made (or after the date of expiry of the ticket, provided for in the Carrier's regulations).

11.5.2 For tickets that involve international transport, certain countries limit the time a passenger can stay in a particular country without a visa or other official government documentation granting permission to stay for an extended period. Provided the passenger can prove that they have received government authorization to remain in the country or that they depart the country by another Carrier or other means of transport, they will be given a refund for any unused coupon(s).

11.6 Currency and payment method

All refunds are subject to the laws, regulations, or governmental orders of the country in which the ticket was originally purchased and the country where the refund is made. Notwithstanding the foregoing, refunds will be made in the currency and method of payment in which the ticket was paid for but may be paid in another currency in accordance with the regulations of the Carrier making the refund.

The Carrier reserves the right not to accept payment by check.
